

2015 NEWSLETTER ORDER FORM

The Churchill Consulting **quarterly** newsletter service will keep you current with the changes in coding terminology, providing you with the newest rulings in regard to utilization and documentation guidelines in radiation oncology. In addition to coding information, our **Newsletters** include relevant information from JCAHO, ACR, OSHA and the EPA.

You may choose the subscription level that best fits your needs. The 'standard' Newsletter subscription entitles you to six (6) coding **inquiries** per subscription period. Or you can subscribe to the 'extended' Newsletter subscription, which entitles you to ten (10) coding **inquiries** per subscription period. You may also purchase additional coding questions if you have used your questions up before the end of your subscription period.

Please check your selection below.
